

Product specification sheet

Completely encased in transparent plastic, our CoreFlex provides accents, particularly in indirect applications. IP68 and IK08 protection ensures that it withstands even the most adverse environmental conditions and external influences.

Let's design our future.

technical drawings

step schematic

* correlated colour temperature of PCB, encapsulation will affect the colour temperature
 ** luminous flux is related to 5.000 K, warmer colour temperatures will reduce the luminous flux, all data are showing typical values, actual lumen output can be less and depends also on surface colour
 *** the LED modules are being delivered without any adhesive tape or glue, aluminum profiles have to be ordered separately, recommendations regarding suitable glue/tapes are being given for individual projects

connection types

VERTICAL CONNECTION

HORIZONTAL CONNECTION

SQUARE CONNECTION

SQUARE/ROUND ENDCAPS
